GLOSSARY

TOURISM

It includes the activities that people carry out during their trips and stays in places other than their usual environment, for a consecutive period of time of less than one year, for leisure purposes, and other reasons not related to the exercise of a paid activity in the place visited.

OVERNIGHT VISITOR (VISITORS)

A visitor (domestic, inbound, or outbound) is classified as a tourist (or overnight visitor) if their trip includes an overnight stay, or as a day visitor (or excursionist) otherwise.

TOURISM BALANCE

This is the part of the balance of payments that includes foreign currency inflows from international visitors (exports) and foreign currency outflows from nationals abroad (imports). It is used to record the balance or imbalance of these transactions with respect to foreign countries and is expressed as a deficit or surplus; the former when imports are greater; and the latter when exports are greater.

SAME-DAY VISITOR OR EXCURSIONIST

A visitor (domestic, inbound, or outbound) is classified as a tourist (or overnight visitor) if their trip includes an overnight stay, or as a same-day visitor (or excursionist) otherwise.

TOURISM ACTIVITY

This includes the actions people perform to enable tourism-recreational events. It encompasses all businesses that invest valuable resources to produce goods and services for the benefit of host communities.

VISITOR

A visitor is a person who travels to a primary destination outside their usual environment for a period of less than one year, for any primary purpose (leisure, business, or other personal reason) other than to be employed by an entity resident in the country or place visited.
